Success Story

Engagement:
Project Based

Industry:
Retail

Offering:
SQL Server & Database Mirroring

Company profile
The customer presently distributes more than 500 products, provided by some top-tier global brands, through its channel. It is a one-stop-source for different security-surveillance and IT requirements with an absolute supremacy in IP CCTV-products, Biometric products, Access Control, Computer Hardware and Peripherals, Data Storage Solutions, Networking, Mobile Accessories, Audio and Multimedia products and Software products.
KEY BUSINESS CHALLENGES

- Critical application was running on single server, making it difficult to afford any downtime or outage.
- Application Servers were connected with a single database Server. In case of any disaster, the data would be lost.
- No recovery plan available for data loss
- No arrangement of high availability and disaster recovery

SOLUTION

- Configuration of Mirror for high availability of databases
- Data flow from both sides in a synchronized form
- Failover Automation
SOLUTION ARCHITECTURE
BENEFITS

- High Performance with synchronized data and reliability.
- Disaster Recovery: Automatic failover from primary database server to secondary database server in case of any disaster.

ABOUT PROGRESSIVE INFOTECH

Trusted IT partner since 1998, Progressive Infotech provides comprehensive suite of transformation and support services. The offerings span across cloud, digital and support operations, delivered through a matured and scalable service delivery model. In every client engagement, Progressive ensures clients realize higher ROI, stretch the intrinsic value of existing IT investments and are better prepared for emergent market changes.

Progressive Infotech is consistently featured as a “mature vendor for IT Outsourcing” in the Gartner hype cycle report for ICT in India for last few years.
