HELPED AN INDIAN-BASED MANUFACTURING COMPANY WITH AZURE RESOURCE MIGRATION

Success Story

INDUSTRY:
Manufacturing

OFFERING:
Migration of Azure Classic Resource to Azure Resource Manager

COMPANY PROFILE
The client is a pioneer in consumer and specialities chemicals in India. They are the market leaders in adhesives with a robust and growing network across demographics and geographies. They deal in adhesives, sealants, waterproofing solutions and construction chemicals to arts & crafts, industrial resins, polymers and more.
KEY BUSINESS CHALLENGES

• Azure Classic Portal was used with various business critical virtual machines (VMs) due to which client was unable to avail the latest features of Microsoft Azure.
• Problems were faced in conducting Infrastructure management and performance enhancement.

SOLUTION

• Azure Resource Migration of ASM (Azure Service Manager) to ARM (Azure Resource Manager) was implemented.
• Acquired the reservation allowance for virtual machines (VMs).
• Storage management simplification was actualized as an enlargement of resource management.
• Utilization of JavaScript Object Notation (JSON) which is known as a resource manager template for defining the infrastructure as a solution to customer’s obstacles.
BENEFITS

• The client can deploy, manage, and monitor all the services as a combined grouped solution, rather than handling all of these services individually.
• The client can deploy its resources in a consistent state.
• Frequent deployment availability of the inferred solution throughout its entire lifecycle.
• Client can control the access properties of all the existing resources in its resource group, furthermore, those policies are automatically applied to the newly added resources of the resource group.
• Tags are applied to resources for logically organizing them in client’s subscription.
• Dependencies between resources can be described accurately leading to correct order deployment of those resources.

ABOUT PROGRESSIVE INFOTECH

Trusted IT partner since 1998, Progressive Infotech provides a comprehensive suite of transformation and support services. The offerings span across cloud, digital and support operations, delivered through a matured and scalable service delivery model. In every client engagement, Progressive ensures clients realize higher ROI, stretch the intrinsic value of existing IT investments and are better prepared for emergent market changes.
